WHERE THE WILD WRITES ITS OWN STORY

Brief Sketch

“In Jawai, the wild is not something you simply witness — it is something you live alongside. Between ancient granite hills, quiet waters and leopard country, every moment draws you closer to a landscape shaped by nature, culture and time.”

Between the pages of a story is a beautiful place to be.....

Tucked into the dramatic wilderness of Jawai, Bookmark Resorts, Cheetahgarh is a tranquil retreat where ancient granite hills, open landscapes and the calm waters of Rotela Lake shape every stay. Set in a region renowned for its leopards, the resort brings together wildlife, local culture and thoughtful comfort within one of Rajasthan’s most distinctive landscapes.

Here, days can begin with a leopard safari, unfold beside the lake or pool, and end beneath wide-open skies. Encounters with the Rabari community, abundant birdlife, and Jawai’s rugged terrain offer a deeper connection to a place where people and wildlife have lived alongside one another for generations.

JAWAI EXPERIENCES

EXPERIENCE JAWAI

Leopard Safari

Set out across Jawai's dramatic granite hills in an open 4x4 to find the region's most celebrated resident — the leopard. Experienced local trackers read the landscape, movement and signs of wildlife while guiding guests through rocky outcrops, scrubland and open wilderness.

A safari is about more than a leopard sighting. Look out for nilgai, hyena, crocodiles, peafowl and other birdlife while experiencing one of Rajasthan's most unusual wildlife landscapes.

- **Best time of year:** October to March for pleasant weather. April to June can be extremely hot, although wildlife activity around water sources may still make safaris rewarding.
- **Recommended time:** Early morning around sunrise or late afternoon towards sunset.
- **Typical duration:** 2.5–3 hours.
- **Seasonal safari windows:** Roughly 05:00–09:00 in the morning and 16:00–20:00 in the evening, adjusted according to season and daylight.
